

Thank you Letter From **Laurie Sowd**

What a complete treat it was! I'm really looking forward to the June adventure.

This is no ordinary cooking class! There's Geraldine, the master chef, whose non-fussy approach makes the amazing menus approachable for those of us with no knife skills. And no petite morsels here—participants get the benefit of full servings of everything Geraldine prepares. Often there's an extra bonus—tequila or wine tasting, for example. Then there's the setting—a magnificent kitchen overlooking the Pacific Ocean. Dangle your toes in the infinity pool between courses and watch the birds swoop and dance. Invite one of her rescue dogs to curl up at your feet during class, and your day is perfect.
